Professional Summary

Full Stack Developer with 3+ years of experience building scalable and high-performance web applications using React, Next.js, TypeScript, and modern JavaScript (ES6+) on the frontend, and Node.js, Express, and MongoDB on the backend. Experienced in responsive UI development, REST API integration, and working in Agile environments using Git.

Work Experiance

Independent Consultant | Remote
Sep 2024 - Dec 2025

Freelance Full Stack Developer

- Worked as an independent Full Stack Developer delivering end-to-end web solutions for small businesses and startups.
- Developed responsive UIs using React & TypeScript and built secure backend APIs with Node.js, Express, and MongoDB.
- Implemented key features such as authentication, role-based access, dashboards, and third-party integrations.
- Collaborated directly with clients, managed timelines independently, optimized performance, and ensured high-quality, maintainable code.

Digisailor
Sep 2022 - Feb 2025

Full Stack Developer

- Involved in the full software development lifecycle, including Requirement Analysis, System Design, Development, Testing, and Deployment.
- Collaborated closely with product managers and architects to define software specifications and deliver scalable solutions.
- Demonstrated the ability to quickly learn and implement new programming languages, frameworks, and tools, ensuring seamless integration of cutting-edge technologies.
- With 2+ years of experience, maintained a consistent track record of meeting deadlines, delivering tasks on time, and ensuring smooth project execution without delays or task spillovers.

Projects

Portray 360 - 5 Elements

Technologies: React.js, Node.js, Tailwind CSS, MySQL, Python, OpenAI Developed an interactive platform leveraging AIpowered capabilities for enhanced user experiences.

Visitor Management System

Technologies: Node.js, Express.js, TypeScript, PostgreSQL, Prisma Client, TypeORM Designed and implemented a secure and scalable system for managing visitor records efficiently.

Hospital Management System

Technologies: Node.js, Express.js, TypeScript, PostgreSQL, Prisma Client Built a comprehensive hospital management solution, optimizing workflows for medical staff and administrators.
